

Earthday Birthday Scavenger Hunt

Tip: Supply each pair of hands with gloves and a garbage bag – the scavenger hunt can double as a community cleanup!

Of course, the age of your participants will determine how far you're able to let them wander, and some of these items will have to be modified depending on your location and the time of year, but these ideas will get you started on a list of your own.

- 5 pieces of litter
- a pink rock
- a four-leaf clover
- three of the same thing (whatever you like)
- a fallen twig that looks like a letter
- a feather
- 2 things that can be recycled
- something shiny
- a fallen leaf
- 2 acorns
- a pinecone
- a rubbing of a sign from a community park
- water from a puddle or fountain
(provide screw-top jars)
